**DETAILED ACTION**

***Election/Restrictions***

1. Claims 35, 39, 44, and 46-49 have withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 13, filed November 14, 2003.
2. The applicant's request for the restriction between Groups 1 and 2 be withdrawn has been reconsidered. In view of applicant's arguments, the restriction between Groups 1 and 2 has been withdrawn.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 32 and 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Weber, U. S. Patent Application Publication 2002/0027837. Weber teaches a CD credit card having an upper and lower surface and a machine readable magnetic strip 20. The card also has curved left and right side edges.
5. Claims 32, 33, 40-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Pentz et al., U. S. 6,471,127. Pentz et al. teaches asymmetrical credit card 130 having an upper and lower surface and a machine readable magnetic strip 131. The card also has curved left and right side edges. (See figures 13A and 13B).

***Allowable Subject Matter***

6. Claims 1-31 and 37 are allowed.
7. Claims 24, 26, and 45 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following U. S. Patents show cards with a case: Immerman – D332,816 and Moran – 1,063,577.
